

SUMMARY OF SERVICES AND GENERAL INFORMATION

- **Medical Treatment** – Utilized for management of treatment provided, trigger point injections, if indicated, and for prescribing medications during acute phase of care.
- **Manual Medicine** – Osteopathic and Chiropractic care for relief of painful neck and back conditions, as well as headaches and joint conditions.
- **Therapy Modalities** – Moist heat, traction, dry hydro therapy, diathermy, muscle stimulation and mechanical massage tables.
- **Multidisciplinary Approach** to care including manual medicine, medical staff for treatment management and medications, as well as therapy modalities.
- **Diagnostic Studies** – Test results are faxed to the referring office and if indicated, the physician will call the referring physician, nurse case manager, or adjuster to discuss the objective findings.
- **Comprehensive Charting** – Each patient, after a comprehensive examination, is carefully given a complete report of findings outlining each step of care. Concise and specific notes are kept and recorded to meet all medical-legal requirements. All notes meet the full requirements of the Medicare guidelines for CPT coding and documentation.
- **Types of Cases** – We specialize in the treatment neuromusculoskeletal conditions from personal injuries, automobile accidents, and neck and back pain conditions.
- **Referrals** – We gladly accept referrals and follow up with timely reports and comprehensive updates. A synopsis of the findings to include areas treated, major symptoms, diagnosis and codes used, proposed treatment protocols as well as the treatment schedule will be provided once the initial patient workup is completed.
- **Multiple Services** – Our multi-care center provides certified licensed healthcare professionals who are trained in musculoskeletal treatment, and physical medicine. Treatment can be tailored to include medical, chiropractic or therapy modalities in any combination requested or prescribed by the referring physician.
